- Critical and blocking defects have been fixed.

### Suspension criteria

- Blocking defect found

### Resumption criteria

- Fixing a blocking defect

### Test deliverables

Send the final testing report by e-mail with a list of all checks and their completion status, and a list of defects found.

### Testing tasks, Schedule, Responsibilities

Test tasks	Schedule	Responsibilities
Planning	7 hours	Babiak I.
Requirements analysis	14 hours	Babiak I.
Test design	22 hours	Babiak I.

Performing testing	42 hours	Babiak I.
Reporting	10 hours	Babiak I.

### **Environmental needs**

OC Windows 98, XP, 7, 10, 11

### **Staffing And Training Needs**

Junior Manual QA

### **Risks and contingencies**

Risk - Tester got sick

Solution - Hire a tester from another team or reschedule the deadline

Risk - insufficient qualifications in Junior QA

The solution is to secure a mentor.

### **Approvals**

Tester
